Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 26 April 2002.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-4, 9,11,12,14, drawn to a CDGF peptide, a medicament, use of the medicament, and a process of preparing CDGF.

Group II, claim(s) 5-7, drawn to the nucleic acid, vector, and diagnostic agent containing nucleic acids.

Group III, claim(s) 8, 18 drawn to the antibody and a diagnostic agent containing antibodies.

Group IV, claim(s) 10, 13, drawn to a diagnostic containing CDGF and the use of the diagnostic.

Group V, claim(s) 15, drawn to a medicament containing nucleic acids.

Group VI, claim(s) 16, drawn to a medicament containing antibodies.

The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Groups I and IV are drawn to methods that recite structurally and functionally distinct elements. Groups I, II, IV,V,VI are drawn to different products. The special technical feature of Group I is the

Art Unit: 1647

CDGF peptide, the medicament, use of the medicament and the process of preparing CDGF. The special technical feature of Group II is the nucleic acid, vector and diagnostic agent. The special technical feature of Group III is the antibody and diagnostic agent. The special technical feature of Group IV is the diagnostic agent and the use of the agent. The special technical feature of Group V is the medicament containing nucleic acids. The special technical feature of Group VI is the medicament containing antibodies.

Furthermore, Group I contains a product, a process of making and a process of using. PCT practices do not provide for examination of multiple methods of using the first claimed product.

In addition, claim 4 recites several different polypeptide sequences. As was stated above, PCT Rules provide for examination of one product, one method of making the product and one method of using the product. Different sequences constitute different products, since they have diverse sequences, coding regions and/or impart structural and functional differences. Applicant is required to elect one polypeptide (SEQ ID NO:).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, separate search requirements, and/or recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 1647

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Regina M. DeBerry whose telephone number is (703) 305-6915. The examiner can normally be reached on Mondays-Fridays 8:00 a.m. - 4:30 p.m.
